## ABOUT THE COMPANY

IC Solution (ICS) is a digital service provider that aims to provide software, designing and marketing solutions to individuals and businesses. At ICS, we believe that service and quality is the key to success

We provide all kinds of technological and designing solutions from Billing Software to Web Designs or any custom demand that you may have. Experience the service like none other!

Some of our services include:

Development - We develop responsive, functional and super-fast websites.

We keep User Experience in mind while creating websites. A website should load quickly and should be accessible even on a small view-port and slow internet connection.

Mobile Application - We offer a wide range of professional Android, iOS & Hybrid app development services for our global clients, from a start up to a large enterprise.

Design - We offer professional Graphic design, Brochure design & Logo design. We are experts in crafting visual content to convey the right message to the customers.

Consultancy - We are here to provide you with expert advice on your design and development requirement.

Videos - We create a polished professional video that impresses your audience.

## OVERVIEW OF THE PROJECT

**Project Name:** LEAF NOW

**Team Members:** Priyanka Boragalli

This project is based on Web Development And its Applications. The main objective of this project is to learn the implementation of HTML, CSS and JavaScript. The basic webpage of this project is created using HTML and styling of the webpage is done using CSS.

LEAF NOW is connecting enthusiasts, LEAF NOW provides farmes, ranchers, private foresters, and agricultural producers with online self service applications and educational materials.

The website should be easy to use and should be user-friendly. It should be compatible with mobile phones and other devices. Also, the data of the user should be completely secured and (s)he has to make an account and set their password to access their account at any point in time, the content of the web page should be downloadable in pdf format

Structural and Conceptual Planning:

- Conversion of current web page content into PDF format.
- User Input while creating the account
- Encrypting passwords for user privacy(optional)
- Making a website compatible to use on other devices.

## **ABOUT**

Ever since industrialization started the care for plants has made it to our least priority list, Even though mankind requires plants to balance the food chain that he's a part of, but the plant enthusiasts are everywhere, be it big metropolitan cities or rural areas, so we aim to bring in a platform that can connect these plant/nature enthusiasts and help them exchange/sell them plants or donate seeds/plants as part of the green initiative

LEAF NOW is connecting enthusiasts, LEAF NOW provides farmes, ranchers, private foresters, and agricultural producers with online self service applications and educational materials.

We are connecting these plant/nature enthusiasts and help them exchange/sell them plants or donate seeds/plants .

## **HOW LEAF NOW WORKS**

A New Way to Invest in Agriculture and be part of the green initiative LEAF NOW is connecting enthusiasts, LEAF NOW provides farmes, ranchers, private foresters, and agricultural producers with online self service applications and educational materials. We are connecting these plant/nature enthusiasts and help them exchange/sell them plants or donate seeds/plants .

- Connect with our farmers

For no one despises or hates or shuns pleasure because it is pleasure itself, but because great pains result from those who reason

- Grow your business

But in order that you may understand whence every error is born, the pleasure of accusing and praising the pain, I will open the whole thing.

- Social Impact Invesment

But indeed we both accuse and deem them most worthy of just hatred, who are seduced and corrupted by the flattery of the present pleasures

## **TOOLS USED**

## **Tools Used and Hosting:**

### **Hosting:**

- Host your static pages on GitHub,
- Create a repository
- Push all the files onto the repository
- Commit the changes
- Upload the repo into your Github account
- Publish the repository by finding the Publish repository button in the setting page of your report

### **Tools required:**

1. PHP server-XAMPP, WAMP, etc.(optional yet recommended)
2. MySQL Database – For managing data entered by the user.
3. Editor –Visual Studio Code(recommended)
4. Front End Requirements – HTML, CSS, Javascript,BS(optional)

## IMPLEMENTATION
